

# SCOTT HUNTER

## BUSINESS LEADERSHIP

Scott Hunter has been transforming organizations for over two decades through keynote speeches, workshops, retreats and management team coaching.

Since 1985, Hunter has helped hundreds of businesses, delivered over 1,000 speeches and worked with over 250,000 individuals as a business coach and speaker. He has conducted hundreds of corporate retreats, consistently producing breakthroughs in the participants' personal and professional lives -- and setting the stage for the companies they manage to achieve results that go far beyond their expectations.

After a stalled legal career, Hunter began to research what it takes for people to produce extraordinary results in their personal lives and careers and for companies to break through to new levels of profitability and success. He took classes, read books and signed up for one seminar after another.

Hunter turned his whole life around and now teaches companies how to make the same success journey he made. Using what he learned painfully -- through trial and error -- he realized he could guide others to move to their own success goals, bypassing costly, time-consuming detours.

Today, Scott Hunter works as a successful business coach and speaker -- a recognized expert, featured on radio talk shows and television news programs. He speaks to thousands of people each year and shares advice with CEOs of corporations of all sizes. His first book, "Making Work Work," has received successful reviews and garnered a following among executives, professionals and students.

His latest book, "Unshackled Leadership: Building Businesses Based on Faith, Trust, Possibility and Abundance," reveals a groundbreaking 15-step program that enables business leaders to become unstuck from conventional and disempowering thinking and create positive and dramatic change within their companies.

*Scott Hunter changes the way business leaders think. Why?*

*Because people who are successful think differently than people who are not. Successful leaders make conscious and wise choices, create relationships based on trust and respect, have a clear sense of purpose, take responsibility for their actions and live with grace and ease.*
